Visit to NIT Rourkela's Robotic Lab

Visit to NIT Rourkela's Robotic Lab

As part of our academic enrichment and exposure to emerging technologies, a visit to the Robotics and Artificial Intelligence Laboratory at the National Institute of Technology (NIT), Rourkela on 11th March, 2025. The session began with a brief introduction to the lab's objectives, current projects, and its contributions to national and international research initiatives. A detailed presentation was delivered on the integration of artificial intelligence with robotic systems, emphasizing areas such as autonomous navigation, industrial automation, and humanoid robots.

The visit to NIT Rourkela's Robotic Lab and Embedded System & Real-Time Laboratory provided valuable insights into cutting-edge technologies. The exposure to robotics, embedded computing, and real-time systems enhanced the students' theoretical knowledge with practical applications. The interaction with experts and researchers further enriched the learning experience, inspiring students to explore these domains further in academic and professional careers. One of the key highlights of the visit was a demonstration of a human-interaction robot capable of performing tasks based on voice commands and programmed algorithms. The lab's emphasis on interdisciplinary collaboration and real-world application of robotic technologies was particularly inspiring.
